Mariana Martinez
Period 6

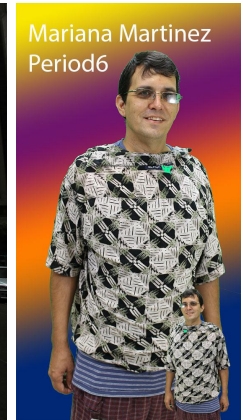

Animation

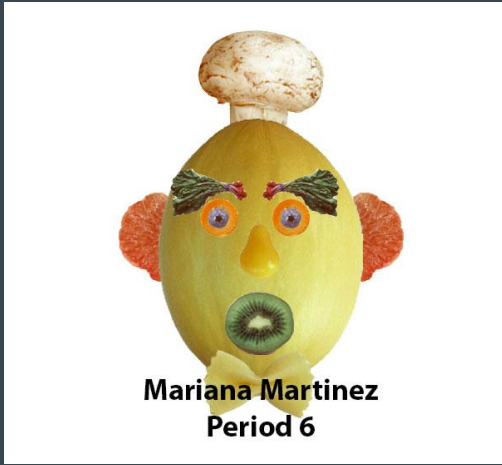

This is an animation of two best friends about to fist punch. This animation was made with Adobe Fash.

Mini Me

For this I made a “mini me” out of Mr. Harrison, me and Mr. Dulkie. I made this with Photoshop and this was the first Photoshop Project I did.

Veggie Man

The top Veggie Man is the one we all made as a class. Then the second one is my abuela (not actually).

Light House Project

This is a lighthouse Photoshop edit. This was possibly one of the easiest projects. I basically just concentrated the color on the lighthouse.

JB AND BRAD Photoshop

For this I gave Justina an ugly nose and a third eye. For Brad I gave him a longer face, made him have a longer face, more facial hair, and less bags.

Personal Goals Poster

This is my Personal Goals Poster.
Just of what my goals are from
now to way after High School.

PERSONAL GOALS FOR MARIANA

Graduation Goals

- Graduate with a 4.0
- Get accepted to a college
- join a club

Goals 5 years after High School

- Go to college
- Move to Mexico

Goals 20 years after High School

- Open my own restraunt
- Build a house
- Open a restraunt

Magazine Cover

This is my Magazine cover. I just wanted to keep it very simple. I also wanted to keep it blue because of the school color.

DVD Cover

This DVD cover was made by Photoshop. For my DVD cover I got inspired by art. So my movie is based on an artist Mari.

Lyric Poster

This is a simple Lyric Poster of the song Oceans. For this I used a vintage ocean picture, then I wanted to make the text simple but elegant.

*Where feet may fail
and fear surrounds me
You've never failed
and You won't start now*

ZION

Thanksgiving Card

This is my thanksgiving card. The Front is a simple blue background and focuses on Fall. The inside is a little different because I wanted it to look somewhat humorous but still cute.

I'm Thankful for...

Mama Loke
To: Sissy Carmy
Papi Benji

AC pathway poster

This is my poster, I'll admit it's not the best. I just wanted the main focus on this poster to be Photoshop, Adobe Flash and Final Cut Pro

Located in M-101
